SUMMARY

Full Stack Developer with 1.5+ years of professional experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Proven ability to deliver production-grade features in Agile/Scrum environments, integrating REST APIs, CI/CD pipelines, and cloud deployments on AWS and GCP. Strong focus on performance optimization, clean code, and responsive UI design.

SKILLS

Technical: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, React Hooks, Context API, React Router, Axios, Next.js, Redux Toolkit, Bootstrap, Tailwind CSS, MUI, Node.js, Express.js, MongoDB, RESTful APIs, JWT, BcryptJS, Mongoose

Tools & Methodologies: Git, GitHub, CI/CD, Jest, React Testing Library, AWS S3, GCP Deployment, Webpack/Vite, Socket.IO, Cloudinary, SDLC, Agile, Scrum, Responsive Design, UI/UX Fundamentals, Vercel, Render

PROFESSIONAL EXPERIENCE

NovaTales Media LLP *Nov 2024 – Present*

Web Developer

- Developed and maintained 5+ production-ready full-stack modules using React.js, Node.js, Express.js, and MongoDB, improving application performance and user experience.
- Integrated 10+ REST APIs and optimized API response handling, reducing average load time by ~30% through caching and query improvements.
- Deployed production applications on AWS (S3) and GCP, maintaining 99%+ uptime in a CI/CD-driven workflow.
- Implemented React component testing using Jest and React Testing Library, increasing test coverage across the frontend codebase.
- Developed e-commerce modules including product management, order workflows, and payment integrations for client-facing applications.
- Collaborated in a cross-functional Agile/Scrum team of 5+, using Git/GitHub for version control and code reviews across multiple sprint cycles.
- Optimized UI responsiveness using Tailwind CSS and MUI, ensuring consistent cross-browser and mobile rendering.

PROJECTS

Synk Chat Web Application *Oct 2025 – Nov 2025*

[Live Demo](#) | [GitHub](#)

- Built a real-time chat application using Socket.IO supporting instant messaging, media sharing, and user authentication.
- Implemented JWT-based authentication with secure session management, reducing unauthorized access attempts by design.
- Integrated Cloudinary for media uploads, enabling image sharing with sub-2s upload feedback in production.
- Followed Agile workflow with Git/GitHub version control and REST API integration throughout the project lifecycle.

Doctor Appointment Booking Web Application *Sep 2024 – Nov 2024*

[Live Demo](#) | [GitHub](#)

- Developed a full-stack appointment scheduling platform with role-based access for patients, doctors, and admins using React.js, Node.js, and MongoDB.
- Implemented JWT authentication and Cloudinary-based media uploads; deployed frontend on Vercel and backend on Render for zero-downtime production.
- Designed RESTful APIs for appointment CRUD operations, supporting multiple concurrent booking flows without conflicts.
- Integrated Razorpay payment gateway for secure online appointment payments.
- Implemented role-based dashboards for patients, doctors, and administrators with secure authentication and appointment management workflows.

EDUCATION

Master's in Computer Science (M.Sc.) *July 2022 – June 2024*

Awadhesh Pratap Singh University, Rewa, Madhya Pradesh

Strong foundation in software development, data structures, algorithms, databases, and core computer science concepts.

Bachelor's in Mathematics (B.Sc.) *July 2019 – June 2022*

Awadhesh Pratap Singh University, Rewa, Madhya Pradesh

Built analytical and problem-solving skills with a solid foundation in logic, statistics, and quantitative reasoning.

CERTIFICATION

UI Full Stack Development with React – Naresh IT | 2024

Completed hands-on training in React.js, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB and full-stack development practices.
